

## 7. lekce **There was, there were**

Jak se tvoří **kladné věty**:

| There | Sloveso být | Co?                     |
|-------|-------------|-------------------------|
| There | was         | a dog / a house / water |
| There | were        | dogs / houses / people  |

**Příklady:** There was a dog on the street. – Na ulici byl pes.  
There were books on my table. – Na mém stole byly knihy.

Do **záporu** přidáme jen „not“:

| There | Sloveso být | Zápor | Co?                     |
|-------|-------------|-------|-------------------------|
| There | was         | not   | a dog / a house / water |
| There | were        | not   | dogs / houses / people  |

**Příklady:** There was not a cat in the house. – V domě nebyla kočka.  
There were not houses on the street. – Na ulici nebyly domy.

U **záporné věty** můžeme využívat zkrácené verze. Tedy **was not** můžeme zkrátit na **wasn't** a **were not** můžeme zkrátit na **weren't**.

- **There wasn't** a cat in the house. – V domě nebyla kočka.
- **There weren't** houses on the street. – Na ulici nebyly domy.
